

2024 NO PLACE TOUR PARIS MADRID BOGOTÁ CDMX WIEN

Promoted jointly by five galleries, **Nueveochenta** (Colombia), **Arróniz** (Mexico), **Sturm Schober** (Germany & Austria) **NF/NIEVES FERNÁNDEZ** (Spain), and **Galerie Sator** (France) **no place world tour**, the 4th edition of **no place**, will occur from January till august 2024, with curated exhibitions in Madrid, Bogota, Ciudad de México, Wien and Paris, Romainville.

no place is an experimental platform for the exhibition of contemporary art. It aims to generate new experiences for the public via an alternative production model. Emphasizing the fundamental role of promotion carried out by the galleries, **no place** operates under a collaborative system, so that the tools, teams and resources of each member are available to others, in a collective effort to produce and finance events where the

focus of attention rests completely on the artists' work, while the galleries benefit from the exchange of intangible assets.

In this sense, it is an unprecedented experiment, and one with which the galleries seek to contribute to the transformation of an established reality as typically sought by all agents linked to the art world.

Taking its name from Thomas More's utopian "no place", into which he projects the organization of an ideal society, **no place** adopts a gesture of radical imagination to pursue the realization of a space in which the experience of art and the commercial potential of the event balance one another. At the same time, it is a nomadic project, since each edition will be held in a different city and space.

For the 4th edition, **no place** will celebrate its more ambitious project: **no place world tour**.

Starting in Paris, **no place world tour** will open January 13th at **Galerie Sator** in Komunuma, with an exhibition curated by Raphael Denis including one artist among the artists represented by the galleries of **no place**.

Following this idea, this will be the first of five exhibitions held in five different countries along 2024.

Galerie Sator, Paris, Romainville
